1. Cross the car park in front of the schools and turn left to the traffic lights. At the lights turn right onto the D918 and continue to **la place du Général de Gaulle**. Take the direction of Condé-sur-Huisne, **rue Jules Lemaître**, and in the bend go down the tarmac **Chemin d'Arrondeau**. This becomes a stony dirt track before crossing the **Corbionne** (footbridge) and the millstream (stone bridge). Carry straight on to **La Moitillière**.
2. At **la Croix Guérin** (calvary cross) turn right towards **La Booz**. In the hamlet take the left turn to **La Noue Marion**. After the houses the narrow path follows the edge of the wood (panoramic view).
3. At the equestrian centre (**Montras**) take the tarmac road to the right which goes down to meet the D620. Take the road directly opposite towards **La Blosserie** and **Le Buisson**. Meet up again with the D620 at **Les Jardins**. Follow the road to the right for 150 metres.
4. Leave the D620 to take a right towards **Les Aunais**. Continue to the left along a grassy path which comes out in the **Bas de Jonville**. In the hamlet turn right. Go on down and cross the **Corbionne** to reach the D918. Cross the road and go up towards **La Dougère**.
5. At the first house take a dirt path leading to **La Dourdannerie** (restored manor house). Continue for 200 metres, turn left and then right further on to arrive in **La Pezassière**. Meet the D918 and cross via the pedestrian crossing.

Follow the gravel path along the main road and over the Bridge. Turn right back to the car park.
